
Insuletics Limited

Procurement Policy

Company 1
Issue 2
Date 3 November 2014

Approved by: Ian Coates

Insuletics Ltd fully understands the impact of its procurement activities and in line with Insuletics Corporate Responsibility Policy is wholly committed to responsible management of its supply chain.

This Policy further reflects the high standards we adhere, outlining Insuletics commitment to managing the environmental, economic and social issues which can arise in the supply chain and our methods of engagement and commitment in ensuring full compliance and improvement. This also applies to our products and services.

Insuletics are committed to:

1. Keeping up to date and implementing any improvements and suggested amendments in line with current legislation
2. Take into account the supply chains social and / or environmental credentials
3. Each supply chain member will be treated in a fair and ethical way
4. Liaise closely with our supply chain to ensure the welfare of its employees are paramount and that strict trading practices are implemented
5. Ensure at all times that recycling, energy efficiency and waste disposal are as stated in our Environmental Policy and adhered to at all times
6. Promote the development, research and adoption of sustainable goods and services wherever practicable
7. To update and retrain where necessary, procurement staff members on the objectives and implementation of this policy
8. Through our Continue Improvement Team (CIT) Insuletics will promote the importance of communication and transparency to sustain its business performance
9. Ensure Insuletics Stakeholders, Board Members and Customers are aware that our commitment to the promotion of this policy is observed

This Policy will be updated as and when required, or when Legislation dictates.

Ian Coates
